Pete:

Do you have Genzale, Fulton and Ave and Jackson Steel? Are some of these Joel's? Any Issues??

Hi Berry;  
The Grumman/Navy site is located east of the Wantagh Parkway, which would put it outside her district (but very close as you note). Here are some notes for the sites in my section:

- The Peninsula Blvd. site was highlighted to Judith on Monday as a fund lead project having a portion of the groundwater remedy shovel ready, however funds have not been secured to initiate the work. Let me know if you would like me to forward to you a copy of the info provided on Monday.
- There are no controversial issues at Old Roosevelt field. We are in the process of completing construction activities associated with upgrades to the treatment plant to address groundwater contamination to the south and the remedial investigation for the eastern portion of the plume is under way.
- At the New Cassel/Hicksville groundwater site we have been in negotiations since June with some of the prps to perform the remedial design for OU1 and the remedial investigation for OU3. We have not received a good faith offer from the prps to perform the work and we are in the process of terminating negotiations and moving ahead with the next steps to get the work done. Kyle Strober recently was inquiring about the former Sylvania facility, which is handled under FUSRAP. Groundwater contamination from this facility and the adjacent GI property comprise OU2 of the New Cassel/Hicksville site.

I did notice that your list does not include sites that have been delisted from the NPL, such as Pasley Solvents. There aren't any issues with those sites. Thanks and let me know if you want to talk about any of these sites.

At the request of the RA I scheduled a meeting with recently elected Congresswoman Rice yesterday. She represents the 4<sup>th</sup> Congressional District on Long Island that was formally represented by Carolyn McCarthy.

The RA has asked that we provide a list of Superfund Sites. I can provide the list. I cut and pasted this list below from a GIS tool list of that we have.

Could you please quickly flag anything that has been recently hot/controversial with these sites that might be worthy of mention.

Also, I am not sure the exact location of the Grumman/Navy site but it is either in her district or close.

Here are links to maps for her district:

<https://kathleenrice.house.gov/about/our-district>

Anything you provide that is useful we need ASAP since the meeting is just a few days away.

Thank you.

Good afternoon, Berry.

Amanda forwarded your Email to me. Would Ms. Enck be available to come to our office to meet with Congresswoman Rice on March 10 at 11am? We are located at 300 Garden City Plaza, Suite. 200, Garden City, NY.

Regards,

*Cheryl Rice*
